

# NTP Software QFS for NAS™ NetApp® Edition

“NTP Software has a unique and superb SRM product. Their policy-based engine (EASE) drove a fully self-managing SRM solution that totally integrated into our storage environment.”

~ Aberdeen Group

## OVERVIEW

### Seamless Control of Filer-Hosted Storage

Network Appliance Filers provide a very cost-effective way to add large volumes of networked storage to an environment. Once these valuable storage resources have been added, the question quickly becomes: How do I manage it?

NTP Software QFS for NAS, NetApp Edition provides a seamless way to integrate the management of NAS-based storage with the management of existing Windows storage.

## BENEFITS

### Reduce the Cost of Storage Management

NTP Software QFS for NAS, NetApp Edition provides the capability to easily create policies that control the manner in which storage is consumed, via file screening and disk quotas. These policies are deployed within a proprietary architecture that is designed to provide a cost-effective way to manage large amounts of storage.

NTP Software QFS for NAS, NetApp Edition extends the life of your existing hardware by providing the ability to control user-based storage consumption in enterprise NAS environments.

## Take Control Of Your Storage

## BENEFITS

- Extend the life of your existing hardware while lowering your total cost of storage management
- Don't live with unnecessary risk — reduce the chance of litigation
- Drive down total cost of ownership with simple enterprise administration

## FEATURES

- Create rigid or flexible disk quota policies at the volume, directory, or share level
- Deep Scan™ and Zip Scan™ provide accurate file-content management
- Automated reporting and cleanup of illegal or prohibited file types

## Building Structure Around Storage

## BENEFITS (CONTINUED)

### Ease of Use for End-User Community

NTP Software QFS for NAS, NetApp Edition has the flexibility to set policies by share, directory, user, or group on Filers and vFilers. Each of these policies can communicate with users via email and pop-ups. Messages are also linked to an online help site that fully explains each message and provides users with guidance, advice, and storage management tools designed to reduce the end-user community's need to contact the Help Desk.

**“NTP has a strong SRM solution... They have the installed base to prove it, with over 100,000 server licenses deployed to date...”**

~ Enterprise Storage Group

## ABOUT NTP SOFTWARE

NTP Software is the worldwide leader in user-focused, policy-based storage management. We create platform-independent products that enable companies to automatically control the compliance, access, quotas, and lifespan of their users' stored files. NTP Software solutions also gather the analysis and planning data necessary for both short- and long-term decision making, providing everything necessary to actively control all aspects of a user's relationship with local and shared storage.

## FEATURES (CONTINUED)

### Make an Enterprise-Wide Change with One Click

Enterprise Application Services Extension™ (EASE) enables multi-system, multi-site applications. EASE provides the infrastructure that replicates policies and other information between systems. EASE allows NTP Software's products to be HIPAA- and FIPS-compliant.

### Remove and Prevent Unwanted Files

Identify extensions you want to block and make exceptions for groups that need access to all files. For example, with NTP Software QFS you can specify that only your marketing department can store MP3s or media files. Enable Deep Scan or even Zip Scan to ensure accurate file content management. Utilize file retention policies to audit or remove existing unwanted files.

### Control Users No Matter Where They Move

Universal User-Based Storage Management™ (UUSM™), a standard for user-focused, policy-based storage management, applies the same quota policy to Windows servers, Network Appliance Filers, and EMC SANs.

## SUPPORTED NETAPP FILERS

NTP Software QFS for NAS™, NetApp® Editions

- NetApp® FAS250 Edition
- NetApp® FAS270 Edition
- NetApp® FAS920 Edition
- NetApp® FAS940 Edition
- NetApp® FAS960 Edition
- NetApp® FAS980 Edition
- NetApp® FAS3020 Edition
- NetApp® FAS3050 Edition
